

The Federal Communications Commission

Dear The Federal Communications Commission,

AFFIDAVIT OF DENIAL OF CORPORATE EXISTANCE

I declare under penalty of perjury that I do not recognize your right to charge for that which is given by God to all mankind freely. Most certainly I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund, a fund that is illegal as it violates the constitution, which requires all fees and taxes to provide of and in themselves the service and a like value commensurate to any fee or tax. Certainly all citizens of the majority income level are, as I am, concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair! Your lack of response to this email within 20 days renders your agency in default.

Sincerely, Steven L. Tuttle 3030 Lewis River Rd.
Woodland, WA 98674

Sincerely,

Steven Tuttle
